California Legislative Coalition for Interior Design (CLCID) is the legislative coalition representing all Interior Designers in the State of California. Your support of CLCID will protect and advance California Interior Design law for the entire Interior Design profession including kitchen and bath designers. Interior Design legislation impacts every Interior and Kitchen & Bath designer in this State. We have just stopped a very damaging bill in the Senate that would have limited our scope of practice and created a barrier to entrance into our profession. **CLCID is our united voice!**

CLCID is in need of funds to continue with their legislative efforts and lobbyist. This is your opportunity to do your part by attending this event to support your future in Interior and Kitchen & Bath Design.

The fundraiser event will include:

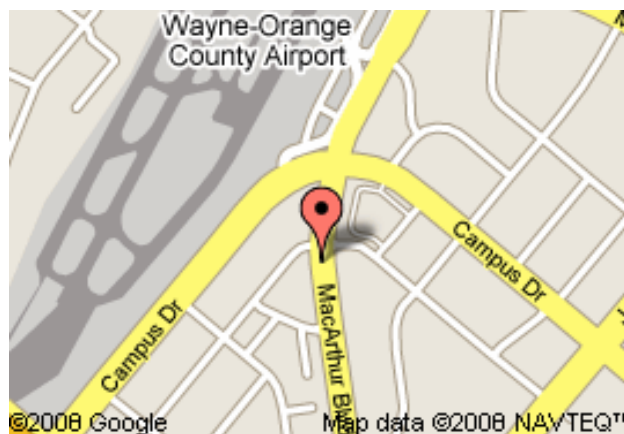

- ▶ **Over 50 EXHIBITORS** include flooring, lighting, surfaces, appliances, cabinetry, art & accessories, glass & mirror, building products and more.
- ▶ **Legislation CEU – Strengthening and Protecting California Interior Designers** (.1 CEU – included in registration)
- ▶ **Great food, beverages, drawings (bring 70 business cards) and FUN!**
- ▶ **"A Whole New Light: LED Lighting" (.1 CEU)**
What are LEDs and how do they work? You will learn about the benefits and energy savings (Title 24). LED, now an affordable option for both residential and commercial interiors, will be compared to traditional lighting sources for application and impact. You will view wide range of examples illustrating LED usage in a variety of applications.

Note: All Chapter meetings, where formal programs are presented, are approved for CEU credit through NKBA.
